El Niño , dapat
paghandaan na

Ayon sa PAGASA sa susunod na buwan, Oktubre ay magsisimula na ang El Niño at maaaring tumagal ito hanggang sa kalahatan ng susunod na taong 2027.

Ayon sa weather bureau, ang El Niño ay inaasahang "very strong" o napakalakas kaya dapat na itong paghandaan ngayong buwan na ng Oktubre.

Ayon kay spokesperson Arnel de Mesa, ang Department of Agriculture (DA) ay nagsimula nang maghanda para matulungan ang mga magsasaka at mangingisda at maglalaan ito ng 6.2 bilyong piso para sa fuels at fertilizer intervention ng mga ito, habang ang 3,5 bilyong piso naman ay hiniling para pondohan ang ilang solar irrigation projects sa buong bansa.

Ayon pa kay De Mesa, nakatanggap na ahensya ng Special Allotment Release Order (SARO) mula sa Department of Budget and Management (DBM) upang masimulan na ang Implementasyon o pagpapatupad ng fuel fertilizer assistance.

Mabuti naman umano ang aksyong ito ng DH para maihanda ang mga magsasaka at mangingisda sa pamamagitan ng tulong na ito.

Ayon sa mga magsasaka, dapat talagang handa na ang lahat bago pa man manalasa ang El Niño na huling naranasan noong nakaraang taong 2024.

Noong 2024, umabot ang pinsala sa agrikultura ng 15.3 bilyon na naging sanhi ng 3.3 porsyentong pagbaba ng produksyon ng bansa sa agrikultura sa fisheries.

Kumikilos naman ang gobyerno at mga kinaaukulan ahensya para matulungan ang lahat dapat ay magkaisa magtutungan ang bawat isa upang mabawasan ang problema at hirap na naidudulot ng malakas at matinding El Niño, na sinasabayan pa ng taas sa presyo ng langis at taas pamasahang mga pampublikong sasakyan.

Magdasal tayo. Sa Diyos humingi rin ng tulong Sa Diyos, walang imposible, Sa Diyos, Sigurado tayo.

DOH urges public to protect themselves from extreme heat amid El Niño

MANDALUYONG CITY (PIA) — The Department of Health (DOH) is urging the public to take simple but essential precautions against extreme heat as the country experiences the effects of El Niño, emphasizing hydration, appropriate clothing and reduced strenuous activity during the hottest hours of the day.

The agency’s health reminder on Facebook forms part of the Marcos Jr. government’s continuing efforts to protect communities from the health risks associated with changing climate and weather conditions.

The Department of Science and Technology-Philippine Atmospheric, Geophysical and Astronom-

ical Services Administration (DOST-PAGASA) reported that a moderate to strong El Niño is present in the tropical Pacific and that the phenomenon is expected to continue through the first half of 2027, with the possibility of reaching a very strong state before the end of 2026.

El Niño generally increases the likelihood of drier-than-usual conditions in parts of the country.

The DOH explained that El Niño occurs when a large portion of the Pacific Ocean becomes warmer, affecting weather patterns and potentially resulting in hotter conditions and less frequent rainfall over several months.

To help prevent heat-related illnesses, the

DOH advises the public to:

- Wear light-colored, thin or breathable clothing to help stay comfortable in hot conditions.
- Stay well-hydrated, with the DOH information material recommending drinking about 8 to 10 glasses of water a day.
- Limit strenuous activities during periods when the sun is at its strongest.

The DOH also reminds the public to watch for warning signs of heat exhaustion, including weakness or extreme fatigue, dizziness or faintness, muscle cramps, heavy sweating and excessive thirst.

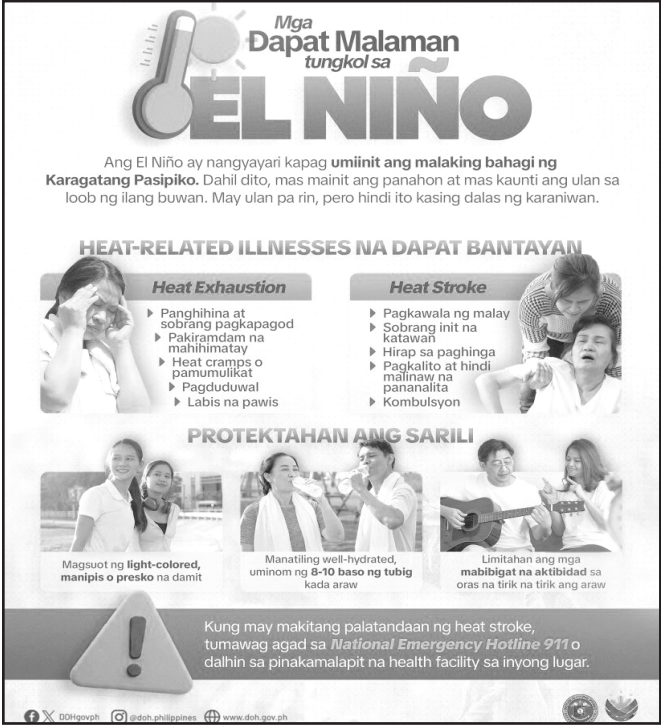

More serious symptoms may indicate heat stroke, including loss of conscious-

ness, extremely high body temperature, difficulty breathing, confusion or inability to communicate properly, and convulsions.

Health authorities have likewise advised people to take heat-related symptoms seriously. The DOH has warned that rising heat index levels can increase the risk of dehydration, heat cramps, heat exhaustion and heat stroke.

If signs of heat stroke are observed, the DOH advises calling the National Emergency Hotline 911 or bringing the affected person to the nearest health facility.

PAGASA, meanwhile, continues to monitor the El Niño phenomenon and has encouraged the public and

concerned agencies to remain updated and take precautionary measures against its potential impacts.

The health advisory, health officials said, underscores the importance of pre-

paredness at the household and community levels, particularly as prolonged periods of heat can place additional pressure on people’s health and daily activities. (JEG/PIA-NCR) –Photo courtesy of DOH

Loanable amount

De Claro noted that while 12 contributions are enough to be eligible for the SSS LoanLite, members with at least 36 total contributions—including at least six posted within the 12 months immediately before applying—qualify for higher loan amounts up to the ₱20,000 ceiling.

De Claro said that members with at least 12 monthly contributions can borrow a loanable amount equal to 11% of their average MSCs in the last 12 months.

“For example, if a member’s average MSC over the last 12 months is ₱20,000 but the member has only 12 total contributions, the loanable amount is ₱2,200 (11% of ₱20,000),” he said. Members with at least 36 total contributions, including at least six posted monthly contri-

butions within the 12-month period immediately preceding the application, may qualify for the maximum loan amount of up to ₱20,000, depending on their average MSC.

Furthermore, members with existing Short-Term Member Loans (Salary, Calamity, or Emergency Loans) may still apply for SSS LoanLite, provided those loans are not past due and they have no active SSS Micro Loan.

Repayment and renewal

Repayments will be collected according to the agreed schedule through an automatic debit arrangement, which is the default collection mode. Deductions will primarily be made from the account where the loan proceeds were credited.

Loan renewal is allowed after full payment of the current microloan, as reported by the participating financial institutions.

Where to apply

At present, SSS LoanLite is available through the UnionDigital Bank mobile application.

De Claro said SSS is also working with Rizal Commercial Banking Corporation (RCBC), Land Bank of the Philippines (LBP), and Union Bank of the Philippines (UBP) to make LoanLite available through their respective digital platforms. #

Nilagdaan ng Pangulong Bongbong Marcos ang Republic Act No. 12326 na nagpaliban sa BSKE at binigyang diin na ang dagdag na panahon sa panunungkulan ay dagdag na panahon sa paglilingkod.

Hinimok din ng pangulo ang mga kasalukuyang opisyal ng mga barangay at Sangguniang kabataan na gamitin ng

karagdagang panahon para lalo pang pagbutihin ang serbisyo sa mga tao, tapusin ang mga nasimulang programa at matugunan ang mga pangangailangan ng kanilang komunidad, pamilya at kabataan.

Subalit nitong nalalipas na linggo, isang legal na hamon o legal na challenge ang isinampa sa Korte Suprema (Supreme Court o SC) na naglalayong ibasura ang batas na nagpapaliban na naman sa barangay at sangguniang kabataan election.

Isang 21- pahinang petisyon ang isinumite sa SC

para sa temporary restraining order at/o status quo ante order na nagpipigil sa pagpapatupad o implementasyon ng Republic Act 12326.

Ang nagsumite ng petisyon, si Atty. Romulo Macalintal, ay isang election lawyer, at hiniling din nito sa SC na atasan ang Commission on Election (COMELEC) na ipagpatuloy nito ang paghahanda para sa BSKE sa Nobyembre 2, 2026.

Sa kasalukuyan, wala pang development sa nasabing petisyon kung ano ang reaksyon o aksyon sa SC.

Cardinal: True wealth cannot be measured by status, possessions

MANILA — Cardinal Jose Advincula urged Catholics to stop measuring their worth by status, possessions and achievements, pointing to St. Francis of Assisi's life of poverty as a path to freedom.

"Saint Francis reminds us of another kind of wealth. A wealth that cannot be bought," Advincula said in his homily at a Mass at the University of Santo Tomas marking the 800th anniversary

of the Transitus of St. Francis on Oct. 3.

The Manila archbishop said true wealth comes from "a heart free enough to give, humble enough to serve, and empty enough to receive God."

He urged the faithful to let go of their need for recognition and their desire to control people and circumstances.

"We need to die to our need to be admired ...

and desire to measure our worth by our position, possessions, and accomplishments," he said.

Advincula said Franciscan poverty is not simply about owning fewer things but about becoming free from attachments that prevent people from serving God and others.

Francis was born into a wealthy family and initially sought military glory before his conversion led him

toward a life of poverty, service and solidarity with the marginalized.

His defeat and imprisonment challenged his ambitions for worldly honor, while his encounter with a leper changed how he saw people living on society's margins, Advincula said.

Francis eventually learned to see the poor not as people to avoid or pity from a distance, but as brothers and

PhilHealth, CARE Philippines empower barangay health workers to combat NCDs

To strengthen community-level healthcare and curb the rising threat of non-communicable diseases (NCDs),

PhilHealth and CARE Philippines have teamed up to equip Barangay Health Workers (BHWs) with the tools, training,

and referral pathways needed to tackle hypertension and diabetes at the grassroots.

The collabora-

tion forms part of the B-STRONG (Building Health Systems to Reduce Non-Communicable Diseases and Global Mor-

tal) program, officially launched by CARE Philippines in partnership with the AbbVie Foundation.

Implemented in strong cooperation with the Philippine Health Insurance Corporation (PhilHealth) NCR, regional health offices, and local government partners, the initiative trains over 3,000 BHWs to expand community outreach toward the ultimate goal of bringing universal healthcare closer to vulnerable populations.

"Thousands of people are living with high blood pressure and diabetes, and most have nev-

er been screened," said CARE Philippines Country Director Reiza Dejito. "Here's what's giving me hope—the care already exists. YAKAP already covers the medicines. The health centers in the LGUs already do the screening. The piece that we can strengthen together is the connection between them. And this is the whole point of B-STRONG, the connection, the bridge, so when a Barangay Health Worker finds a family in need, they help connect them to the care that is already there."
